

Back to School with the Red Roo 1260 Chipper

BRISBANE, March, 2009 -- Red Roo Sales & Service Company Pty Ltd has completed delivery and commissioning of a new 1260 chipper to the Metropolitan South Institute of TAFE.

**Groundsman of Metropolitan South
Institute of TAFE & their new 1260**

“We realised that there was a more effective way to manage green waste among our three campus’,” says Sy Balk of the Metropolitan South Institute of TAFE. “We undertook a process to determine which size of chipper offered the TAFE the best performance and value. After shortlisting and competitive demonstrations, the Red Roo 1260 proved hard to beat.”

“We are very pleased that Metropolitan South Institute of TAFE has selected the 1260,” says Sean Kerr of Red Roo. “The 1260 offers exceptional value in a 6” capacity chipper and borrows some features from its larger stablemates, the 1790 and 2012. Big power, big features, small package - the 1260 fits the bill.”

The 1260 selected by the TAFE features a powerful, 35hp (26.1kW) V-twin Briggs & Stratton Vanguard series petrol engine. The 1260 uses an exclusive Sliding Carriage to engage the cutter disc and eliminates the clutch. Live hydraulics power twin feed rollers with independent hydraulic motors. A massive 12” (305mm) x 6” (150mm) feed opening allows for quick processing while minimising trim work.

The 1260 is manufactured in the United States by Carlton to an Australian specification developed with Red Roo. Standard features include digital autofeed, 360° swivel discharge chute, torsion bar axle, and full ADR compliant lighting with multivolt Hella® lights. A class leading 33hp (24.6kW) Kubota turbo diesel is also available as an option.

The Metropolitan South Institute of TAFE was formed in 2006 and was given the responsibility for the delivery of vocational education and training across the south side of Brisbane. The new institute delivers all business, computing and other non-trade courses previously delivered by Logan, Moreton and Yeronga TAFEs. More information on the TAFE is available online at www.msit.tafe.qld.gov.au.
